AMÉLIE PERDRIAUD UX DESIGNER & DEVELOPER

Amsterdam | +31 6 15 52 41 93 | amelieperdriaud@gmail.com | amelieperdriaud.io

After working 5 years as a full-stack developer, I graduated from a UX Design Bootcamp
where I learned what I needed to bring more creativity into my job, and more satisfaction into customers' life.

EXPERIENCE

Capgemini Financial Services Amsterdam Full-stack developer   July 2019 - Now

- Developed the frontend and the backend of web applications for companies in the financial sector
- Collaborated with UX Designers and developers to create components for the ABN AMRO's Design System
- Managed a team of 5 developers to build an MVP, and won the prize of the Capgemini's best team of the month
- Coordinated architectural and agile rituals with stakeholders

Thales Services Aix-en-Provence Product owner   April 2018 - December 2018

- Led a 6-member cross-functional (engineering, testing, delivery, support) team toward the successful launch of a web application in the maritime sector; the app is used daily by more than 4000 users (dockers, customs, freight agent etc.)
- Translated business requirements into 50+ user stories and managed the product backlog
- Gathered customer's feedback from support and prioritize product improvement's features

Thales Services Aix-en-Provence Full-stack developer   February 2016 - April 2018

- Developed the frontend and the backend of a web application for a company in the maritime sector, in a multi-disciplinary team of 18+ people
